

24 May 2012

RESIGNATION OF DIRECTOR

The Board of Directors of IMX Resources Limited (ASX: IXR) ("IMX" or "the Company") has received the resignation of Director Mr Tony Haggarty.

Mr Haggarty was appointed to the Board on 29 January 2008 and has resigned due to his increasing responsibilities as Managing Director of Whitehaven Coal.

Mr John Nitschke, Chairman of the Board said, *"The Board would like to thank Mr Haggarty for his contributions during his service as a Director and wishes him well for all his future endeavours."*

About IMX Resources Limited

IMX Resources Limited (ASX: IXR) is an ASX listed company headquartered in Perth, Western Australia.

IMX is a mining and mineral exploration company with an iron ore mining operation in South Australia, and an advanced nickel sulphide development project in Tanzania.

IMX operates and owns 51% of the Cairn Hill Mining Operation, located 55 kilometers south-east of Coober Pedy in South Australia, where it produces a premium coarse-grained magnetite–copper-gold DSO product at a rate of 1.7Mtpa.

IMX recently agreed to acquire all the issued shares in Continental Nickel Limited in order to bring the ownership of the Nachingwea Nickel – Copper Project in Tanzania within its control. That transaction remains subject to shareholder approval. IMX plans to bring the Nachingwea Nickel-Copper Project into production by 2015. The Company is at an advanced stage of planning for the development of a major new nickel sulphide mining operation, which has the potential to produce a premium quality nickel concentrate product. Nachingwea has the potential to become a world-class nickel and copper project with significant exploration upside.

IMX is actively developing the Mt Woods Magnetite Project on the highly prospective Mt Woods Inlier in South Australia. IMX owns 100% of the iron ore rights of the Mt Woods tenement package, where it currently has a JORC Inferred Resource of 569Mt @ 27% Fe at the Snaefell Magnetite Deposit and a Global Exploration Target of between 200-380Mt @ 25-35% Fe elsewhere in the project.

IMX has also entered into a joint venture with OZ Minerals (the Mt Woods Copper-Gold JV Project) to explore the Mt Woods tenements for copper and gold. OZ Minerals is spending a minimum of \$20M for a 51% interest in the non-iron rights, with IMX retaining a 49% interest in the non-iron rights.

IMX owns 25.65% of Uranex (ASX: UNX), which is a dedicated uranium exploration company, which is developing the Mkuju Uranium project in southern Tanzania.
