Continental Nickel Completes Cdn\$9.0 Million Placement

IMX Resource NL's 53.03% (after this placement 47.6%) owned TSXV listed subsidiary and Nachingwea JV partner, Continental Nickel Limited has announced that on 8 January 2008 it completed the underwritten placement announced on 12 December 2007. A syndicate of underwriters led by Paradigm Capital Inc with PI Financial Corp. and Raymond James Ltd. has placed 3m shares at a price of Cdn\$3.00 per share to raise a gross Cdn\$9.0 million.

The board of IMX Resources decided not to exercise its anti-dilution rights under the shareholder agreement with Continental Nickel. Consequently IMX Resources holding has diluted down to 47.6% of Continental Nickel (46.2% on a partially diluted basis after warrants) after the placement. The underwriters will receive 97,500 warrants exercisable at Cdn\$3.00 per the company.

Continental Nickel intends to use the net proceeds of the placement to accelerate exploration at the Continental Nickel (70%) / IMX Resources (30%) Nachingwea JV nickel project in Tanzania as well as to pursue new exploration property acquisitions and for general corporate activities. The placement will put Continental Nickel into a very strong position financially to follow up on the recent exciting results from Nachingwea and to grow the company.

The final assay results from the 2007 Nachingwea drilling program are expected over the next 4 to 6 weeks following the very promising results released on 21 November 2007 and 11 December 2007.

About IMX Resources NL

IMX Resources NL (ASX:IXR) – is headquartered in Perth, Western Australia, is listed on the Australian Stock Exchange (ASX) with a current market capitalisation of approximately \$100m.

IMX Resources is an active diversified mining company with projects in South Australia, Tasmania and Tanzania, East Africa, focusing on a range of commodities including iron-ore, nickel, gold, copper, platinum and uranium.

The company is disciplined in following a careful strategy to maximise shareholder value by discovering and developing ore bodies. IMX Resources achieves this by participating in multiple, quality exploration projects in joint ventures with global mining companies, and by listing spin-off companies, to ensure programs with high potential are well-funded, while retaining a significant interest to provide exposure for IMX Resources shareholders. In 2007 IMX Resources shareholders were leveraged to \$19m of exploration, with IMX Resources contributing \$1.5m.

IMX Resources 100%-owned project is Cairn Hill, 55 kilometres south-east of Coober Pedy, South Australia. This unique magnetite Fe – Cu – Au project is close to the Darwin to Adelaide railway line. Studies indicate the project is viable and will produce a premium niche magnetite product that does not require pelletisation for use in the iron and steel industry in addition to having a significant Cu revenue stream. IMX Resources has signed a 3 year offtake agreement with Jilin Tonghua Iron & Steel (Group) Mining Co Ltd which will allow the Company to move to the development of the project.

In Tanzania, Lonmin Plc is earning interest in IMX Resources Mibango and Luwumbu platinum joint ventures. Lonmin currently funds and operates the exploration for both projects.

IMX Resources spun off 70% of the Nachingwea Nickel - Copper project in Tanzania into a Continental Nickel Limited (TSXV:CNI) in August 2007. IMX Resources holds 47.6% of Continental Nickel (after the completion of the placement) and retains a 30% free carried interest in the Nachingwea Nickel - Copper project through a joint venture company structure.

IMX Resources owns 39.5% of Uranex (ASX:UNX), a spin-off company from IMX Resources, which listed on the ASX in October 2005 and is dedicated uranium company with assets in Australia and Tanzania.

Continental Nickel Announces Closing of C\$9.0 Million 'Bought Deal' Private Placement Financing

NOT FOR DISTRIBUTION TO U.S. NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

Toronto, Ontario (January 8, 2008) : **CONTINENTAL NICKEL LIMITED** (TSXV:CNI) is pleased to announce that it has completed the sale of 3.0 million common shares (the "Common Shares") at a price of \$3.00 per Common Share (the "Offering") for a aggregate gross proceeds of \$9.0 million pursuant to an underwriting agreement with a syndicate of underwriters led by Paradigm Capital Inc. and including PI Financial Corp. and Raymond James Ltd. (the "Underwriters"). The Underwriters agreed to complete the private placement, on a bought deal private placement basis, with a right to substitute purchasers. As part of the financing, the Underwriters exercised an option to purchase an additional 390,000 Common Shares at \$3.00 per Common Share which is part of the aggregate gross proceeds of \$9,000,000.

This financing was first announced on December 12, 2007. The Company intends to use the net proceeds of the Offering for further exploration of its Nachingwea nickel project in Tanzania as well as to pursue new exploration property acquisitions and for general corporate activities.

Continental Nickel paid the Underwriters a cash commission representing 6.5% of the gross proceeds of the Common Shares sold pursuant to the Offering. The Underwriters also received Compensation Options entitling them to purchase that number of common shares equal to 3.25% of the total number of Common Shares sold pursuant to the Offering at a price of \$3.00 per Common Share. The Compensation Options expire on July 8, 2009. All securities issued pursuant to the financing are subject to a 4 month statutory hold period from closing which expires on May 9, 2008.

This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons as defined under applicable securities laws unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About Continental Nickel

Continental Nickel Limited is an exploration company focused on developing and advancing nickel sulphide exploration projects in geologically prospective, but under explored regions globally. On a post-private placement basis, Continental Nickel now has 30,009,727 shares issued and outstanding (32,435,916 on a fully-diluted basis) and trades on the TSX Venture Exchange under the symbol CNI.
